### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with John Dresch on 8/24/2009.

3. The application has been amended as follows:

a. Claim 17 (as amended on 5/11/2009) has been rewritten as follows:

17. (Currently amended) A vacuum cleaner comprising:  
a housing defining an internal cavity;

a lid connected to the housing for providing access to the internal cavity, the lid being movable between an open condition in which the internal cavity is open, and a closed condition, in which the internal cavity is closed,

a wall connected to the housing and defining a dust chamber within the internal cavity, the wall having an edge facing the lid;

a dust separator disposed within the dust chamber for retaining dust;

an accessory chamber disposed within the internal cavity and the wall separating the accessory chamber from the dust chamber; and

a seal member forming a dust-tight seal between the wall and the lid when the lid is in the closed condition that prevents dust from passing from the dust chamber into the accessory chamber

wherein the lid includes an opening and a closure part for closing the opening, the opening being adjacent to the accessory chamber and providing access to [[an]] the accessory chamber when the lid is in the closed condition while [[an]] the seal between [[a]] the wall and the lid is maintained, a respective portion of the lid borders the opening, this respective portion of the lid defines a lid opening border surface, the closure part includes a retractable blind attached to the lid that is slidable with respect to the lid along a slide track to open and close the opening, and the retractable blind is configured such that the respective portion of the retractable blind that extends along the slide track does not project from an external contour of the vacuum cleaner outwardly beyond the lid opening border surface;

~~a wall connected to the housing and defining a dust chamber within the internal cavity, the wall having an edge facing the lid;~~

Art Unit: 3727

~~a dust separator disposed within the dust chamber for retaining dust;  
an accessory chamber disposed within the internal cavity and the wall separating  
the accessory chamber from the dust chamber; and  
a seal member forming a dust-tight seal between the wall and the lid when the lid  
is in the closed condition that prevents dust from passing from the dust chamber  
into the accessory chamber.~~

b. The phrase “outwardly beyond the lid opening border surface” in lines 24 and 25 (last 2 lines) of claim 27 have been changed to “from an external contour of the vacuum cleaner”.

c. Claims 19 and 28 have been cancelled.

d. The amendments to the specification, filed on 5/11/2009, have been entered, however the last sentence of the paragraph on page 7, before line 30 (lines 2-4 of amendments page 3), reading “As shown in Figures 1 and 3, the portion of the blind 17 that extends along the slide track 20 does not project outwardly beyond the opening 15.”, has been deleted.

4. The following is an examiner’s statement of reasons for allowance: the prior art of record (considered as a whole) neither anticipates nor renders obvious a vacuum cleaner comprising an internal cavity and a lid providing access to the internal cavity, with a dust chamber, an accessory chamber and a wall within the cavity, the wall separating the dust chamber from the accessory chamber, a seal member forming a dust tight seal between the wall a the lid when the lid is closed and the lid also comprising a closure part in the form of a retractable blind to provide access to the accessory chamber when the lid is in the closed position and the seal between the wall and the lid is maintained in combination with the rest of the limitations set forth in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3727

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
